MSc

SAFETY HEALTH AND ENVIRONMENT

University of Salford MANCHESTER

There is a growing trend of companies combining their environmental protection and health and safety functions. MSc Safety, Health and Environment is designed to be a relevant vocational qualification for current and future professionals in this area. Offering industry continuing professional development, it provides an opportunity for interdisciplinary postgraduate study relevant to modern SHE practices.

Guided by industry requirements, on successful completion, you will gain the skills to manage rapid social, technological and organisational change, promoting an understanding of relevant concepts, ready for contemporary professional practice.

ACCREDITED BY:

COURSE DELIVERY

The course is available in flexible study formats, including full and part-time pathways. This course comprises eight 15 credit taught modules, followed by a 60 credit research project. On completion, you will qualify with GradIEMA professional status.

Featured modules:

- Standards and Auditing
- Safety Conservation
- Occupational Health and Hygiene
- Environmental Impact Assessment
- Risk Regulation
- Postgraduate Scholarship Skills
- Professional Practice
- Research Design and Delivery
- Dissertation

COURSE EXPERIENCE

- Develop skills relevant in modern Safety, Health and Environment (SHE) practice as you learn aspects of both environmental and occupational health
- Learn how to undertake health, safety and environmental audits against a background of sustainability
- Evaluate processes for investigating and mitigating the impact of development in the context of environmental impact assessment and planning procedures
- Examine the relevance and relative merits of the different tools and approaches available to assess and improve SHE performance and addressing sustainability
- Qualify for GradIEMA professional status, allowing you a fast-track option after you graduate to gain Practitioner status following a work-based competency assessment

MSC SAFETY, HEALTH AND ENVIRONMENT

Start Date: September, January

Duration: One year full-time; up to three years part-time

Location: Peel Park campus / distance learning

Entry Requirements:

Applicants should possess at least a UK lower second-class honours degree (2:2) or equivalent in any subject. Applicants must also fulfil the IOSH entry requirements: a basic knowledge of occupational safety and health.

We also accept applicants who may not have formal/traditional entry criteria but who have relevant experience, through our Accreditation of Prior Learning (APL) scheme. International applicants must demonstrate proficiency in English through an IELTS score of 6.0 (and no element below 5.5).
