11. Transfer of Candidature to another Research Award

- (a) A candidate for the Award of Doctor of Philosophy (PhD) may be permitted by the Board of Faculty and the University, through the Postgraduate Research Award Board, usually after consideration of an Interim Assessment report, but exceptionally and with the agreement of the candidate after consideration of a report by the Supervisor, to become a candidate for the Award of Master of Philosophy (MPhil), Master in Research (MRes), Master of Science (MSc), or Master of Laws (LL M) at any time prior to the candidate giving notice of intention to present a thesis for the PhD. Where such a transfer is required or permitted the candidature for the PhD shall be deemed to have been terminated and the period of study for the PhD **or** may be recognised as a period of study for the PhD. A candidate for the Award of Professional Doctorate in the same circumstances and on the same basis may be permitted to become a candidate for the Award of Master of Philosophy at any time prior to the candidate giving notice of intention to present a thesis for the DProf. Where such a transfer is required or permitted the candidature for the DProf shall be deemed to have been terminated and the period of study for the DProf may be recognised as a period of study for the DProf.
- (b) A candidate for the Award of Master of Philosophy (MPhil), Master in Research (MRes), Master of Science (MSc) or Master of Laws (LL M) may be permitted by the Board of Faculty and the University, through the Postgraduate Research Award Board, after consideration of a Transfer Assessment held at the request of the candidate, to become a candidate for the Awards of Doctor of Philosophy (PhD) or Professional Doctorate (DProf) in which case the Board may recognise the whole or part of any period of study undergone for other Awards as a period of study for the PhD or DProf.

Where such a transfer is permitted the candidature for the other Award shall be deemed to have been terminated.

12. Progression of Candidature

The Board of Faculty, and as appropriate the University through the Postgraduate Research Award Board, shall monitor the progress of candidates

- (a) by the completion of a Learning Agreement, within the first three or six months respectively of candidature, by the Supervisor and Candidate.

The Learning Agreement may follow a model with indicative content commended by the University so as to cover such aspects as research plans, timing and resource requirements, mechanisms for consultation with the Supervisor, ethical considerations including Intellectual Property Rights and relevant research training or may be in accord with a generic Learning Agreement, developed by a Programme Team and approved by the Director of Graduate Studies. Such a generic Learning Agreement will

similarly cover those aspects cited as covered by the above model with indicative contents commended by the University.

- (b) by the completion of an Annual Progress Report, prior to re-registration, or to a writing-up period, by the Supervisor. .

The Annual Progress Report shall follow a model commended by the University so as to report on: the candidate's achievements in the past year; the likelihood that the candidate will submit in due time; the addressing of matters which might inhibit submission in due time; confirmation of the completion of a Learning Agreement and of attendance at relevant training.

The Annual Progress Report shall recommend to the Board of Faculty:

- (i) the re-registration of the candidate without any amendment to the candidature
- (ii) the refusal of re-registration for administrative or procedural reasons, such as the non-completion of a Learning Agreement or non-payment of the appropriate fees at the prescribed times.
- (iii) the re-registration of the candidate but with an amendment to the duration of the programme of study.
- (iv) the transfer of the candidate to another Research Award, or termination of candidature, subject to an Interim Assessment or Internal Evaluation.

but where completed prior to a writing up period the Annual Progress Report should comment upon matters relating to submission.

On the part-time Professional Doctorate as the Interim Assessment and Internal Evaluation would usually be held at the end of the third and fourth years respectively of a five year programme the requirement for the Supervisor to complete an Annual Progress Report at the end of those two years is forgone.

In the exceptional circumstances where the Annual Progress Report recommends to the Board of Faculty the transfer of the candidature to another Research Award or termination of candidature, and the candidate has already undergone an Interim Assessment and Internal Evaluation, this will be subject to a Discretionary Additional Formal Evaluation which shall take the same form and follow the same process, including reporting arrangement, as an Internal Evaluation.

- (c) by the completion of a Postgraduate Researcher Annual Self-Evaluation Report prior to re-registration or to a writing-up period.

The Postgraduate Researcher Annual Self-Evaluation Report shall follow a model commended by the University so as to invite a report on: the candidate's academic progress; their supervisory arrangements and the research environment; confirmation of the completion of a Learning Agreement and of attendance at relevant training. Where completed prior to a writing-up period, the Postgraduate Researcher Annual Self-Evaluation Report should comment upon matters relating to submission.

- (d) by undertaking an Interim Assessment on doctoral level Awards: Doctor of Philosophy (PhD), Engineering Doctorate (EngD), Doctor of Musical Arts (DMA), Professional Doctorate (DProf) and Doctor of the Built Environment / Real Estate / Construction Management (DBEnv /DRealEst/DConsMgt).

An Interim Assessment shall take place no sooner than the 15th month and no later than the 18th month of a full-time candidature (and proportionately within a similar time range for a part-time candidature) and shall comprise the assessment by a panel of the

candidate's general progress including confirmation that a Learning Agreement has been completed and updated as necessary and appropriate training undertaken. The panel shall comprise the Supervisor, the Research Institute Director's nominee and one other appropriate member of staff who is a Research Institute member. The candidate shall submit to the panel a report of up to 4,000 words describing current and future intended progress in their research.

The panel shall report on the assessment of progress against generic criteria; evaluation of the current progress of the research project; and a diagnosis of future training requirements. The panel must confirm that the candidate has reached a threshold of academic performance and that the doctoral level candidature may continue.

If a panel is unable to confirm that a candidate has reached such a threshold, the candidate shall be provided with reasonable practical assistance in the form of academic advice and additional training so as to repeat the Interim Assessment by no later than three months after the original holding of the Interim Assessment of a full-time candidature (and proportionately at an appropriate point of a part-time candidature).

- (e) On doctoral level awards, other than Professional Doctorates, where the Research Institute Board, when acting for the Board of Faculty in exceptionally approving a shortened full-time duration of candidature, is identifying a potential candidate as sufficiently prepared and equipped for doctoral level study to complete a doctoral award in two years, the Interim Assessment shall be foregone. However the admission decision of the Research Institute shall be fully articulated in writing, setting out auditable information on the candidate's qualifications and experience; training already undergone; and confirmation that the candidate had reached an appropriate threshold of academic performance. In addition, the Research Institute would consider past experience against its applicability in terms of the forthcoming research project and would diagnose future training needs for the candidature.

The written articulation of the admission decision shall be then treated as equivalent to the report of an Interim Assessment panel to the Board of Faculty and the University.

The Interim Assessment would also be foregone on a similar basis, and subject to the same written articulation of the Research Institute Board's admission decision and its consideration, where a part-time candidature, again other than Professional Doctorates, were also exceptionally shortened to from three years to five years.

- (f) A candidate seeking to transfer to the Award of Doctor of Philosophy (PhD), Professional Doctorate (DProf) or Doctor of the Built Environment / Real Estate / Construction Management (DBEnv/DRealEst/DConsMgt) from a Master of Philosophy (MPhil), Master in Research (MRes), Master of Science (MSc) or Master of Laws (LL M) may also request and shall then be granted a Transfer Assessment which shall take the same form and follow the same process, including reporting arrangements, as an Interim Assessment.

At the end of the Interim or Transfer Assessment process therefore the panel within its final report to the Board of Faculty and the University shall recommend:

- (i) continuation of the candidate on the doctoral level Award.
- (ii) transfer to another Research Award: Master of Philosophy (MPhil), Master in Research (MRes), Master of Science (MSc) or Master of Laws (LL M). Where

such a transfer is required the candidature for the doctoral level Award shall be deemed to have been terminated and the period of study for the doctoral level Award may be recognised as a period of study for the other Award.

- (iii) termination of candidature.
- (iv) in the case of a candidate seeking to transfer to the Award of Doctor of Philosophy (PhD) or Professional Doctorate (DProf) from a Master of Philosophy (MPhil), Master in Research (MRes), Master of Science (MSc), or Master of Laws (LL M) transfer or not of the candidature
- (g) by undertaking an Internal Evaluation on doctoral level Awards: Doctor of Philosophy (PhD), Engineering Doctorate (EngD), Doctor of Musical Arts (DMA), Professional Doctorate (DProf) or Doctor of the Built Environment / Real Estate / Construction Management (DBEnv/DRealEst/DConsMgt).

An Internal Evaluation shall take place 12 months after Interim or Transfer Assessment on a full-time candidature (and proportionately within a similar time for a part-time candidature) and shall comprise the assessment by a panel of the candidate's continuing academic progress including confirmation that a Learning Agreement has been updated as necessary and appropriate training undertaken. The panel shall comprise the Research Institute Director or nominee and another appropriate member of staff who is a Research Institute member and who is not part of the candidate's supervisory team and did not serve on the candidate's Interim or Transfer Assessment panel. The candidate shall submit a substantive piece of work whose format shall be determined by the Research Institute with regard to the nature of the research project undertaken.

The Panel shall report to the Board of Faculty and the University on the assessment of continuing academic progress and shall offer wherever possible formative comment and assistance to the candidate. Within its report the panel shall recommend:

- (i) continuation of the candidate on the doctoral level Award.
- (ii) transfer to another Research Award: Master of Philosophy (MPhil), Master in Research (MRes), Master of Science (MSc) or Master of Laws (LL M). Where such a transfer is required the candidature for the doctoral level Award shall be deemed to have been terminated and the period of study for the doctoral level Award may be recognised as a period of study for the other Award.
- (iii) termination of candidature.

13. **Complaint or Appeal Against the Monitoring of the Progression of Candidature**

A candidate shall have the right to lodge a complaint against a recommendation within an Annual Progress Report to refuse re-registration for administrative or procedural reasons, such as the non-completion of a Learning Agreement or non-payment of the appropriate fees at the prescribed times. A candidate shall also have the right to lodge a complaint against a recommendation that re-registration be with an amendment to the duration of the programme of study. Such complaint would be lodged under the University's 'Student Complaints Procedure'.

A candidate shall also have the right to appeal against the decision of the University, through the Postgraduate Research Award Board, after initial consideration by the Board of Faculty, based upon recommendations made in relation to:

Transfer of Candidature
Interim or Transfer Assessment

Internal Evaluation
Discretionary Formal Additional Assessment

Such appeal would be lodged under the 'University's Academic Appeal Procedure: Postgraduate Research Awards'.
