 Available from 1997 volume: 13 issue: 1
 Authentication notes:
 Network username and password required.

- When you are signed into the reading lists system you can add notes to any item in your list.

Add note

Click on the add note button next to any item. This will display the Private study note box. Type in your notes and click on Save.

Your notes are private – tutors can see how many notes have been made on an item but they can't see the notes content or the author of the note.

Private study note

Path: p

This note is private to you. All your study notes are also available from [your profile page](#).

Close Save

Hover over the Edit notes button to see your notes:

Read status Edit note

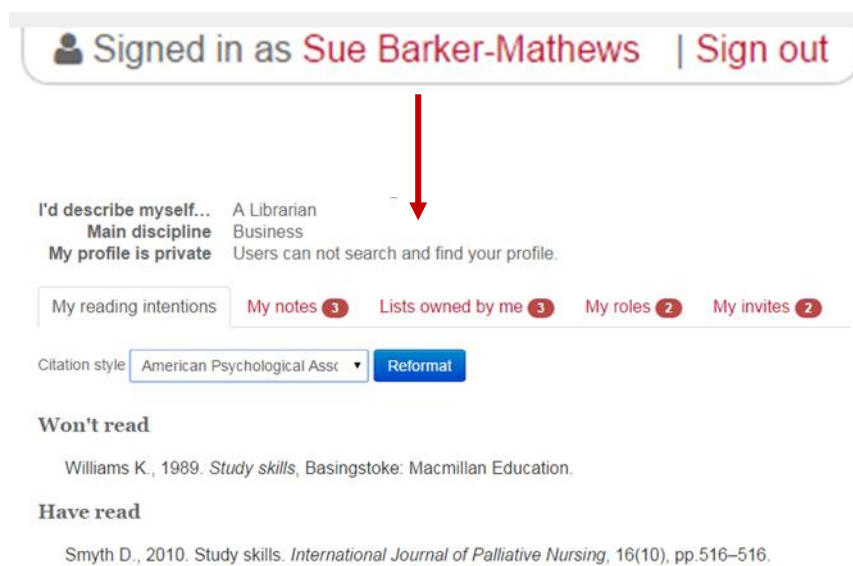

Good introduction - read again & make notes for assignment.

You can also see any notes you have made by viewing your profile.

- Use the Read status button to mark items you plan to read later – After selecting an option the button then changes to reflect your choice:

- View your profile by Clicking on your name highlighted in red this allows you to view your reading intentions for the items on your reading list and anynotes you have made.

Please contact your [Academic Support Librarian](#) with any queries.
