MANCHESTER
SCIENCE FESTIVAL

SUPPORTED BY
SIEMENS

Salford Science Jam

Saturday 24 - Sunday 25 October
10.00am - 4.00pm

at University of Salford, MediaCityUK
FREE entry, ideal for all the family!

Are you mad about science?

From colour changing shrimp to musical robots, Manchester Science Festival has it all.

Join in the science experiments, draw with drones, make a bacterial selfie, experience the power of virtual reality and much more!

**Channel your inner scientist,
bring bags of enthusiasm and
let's get started!**

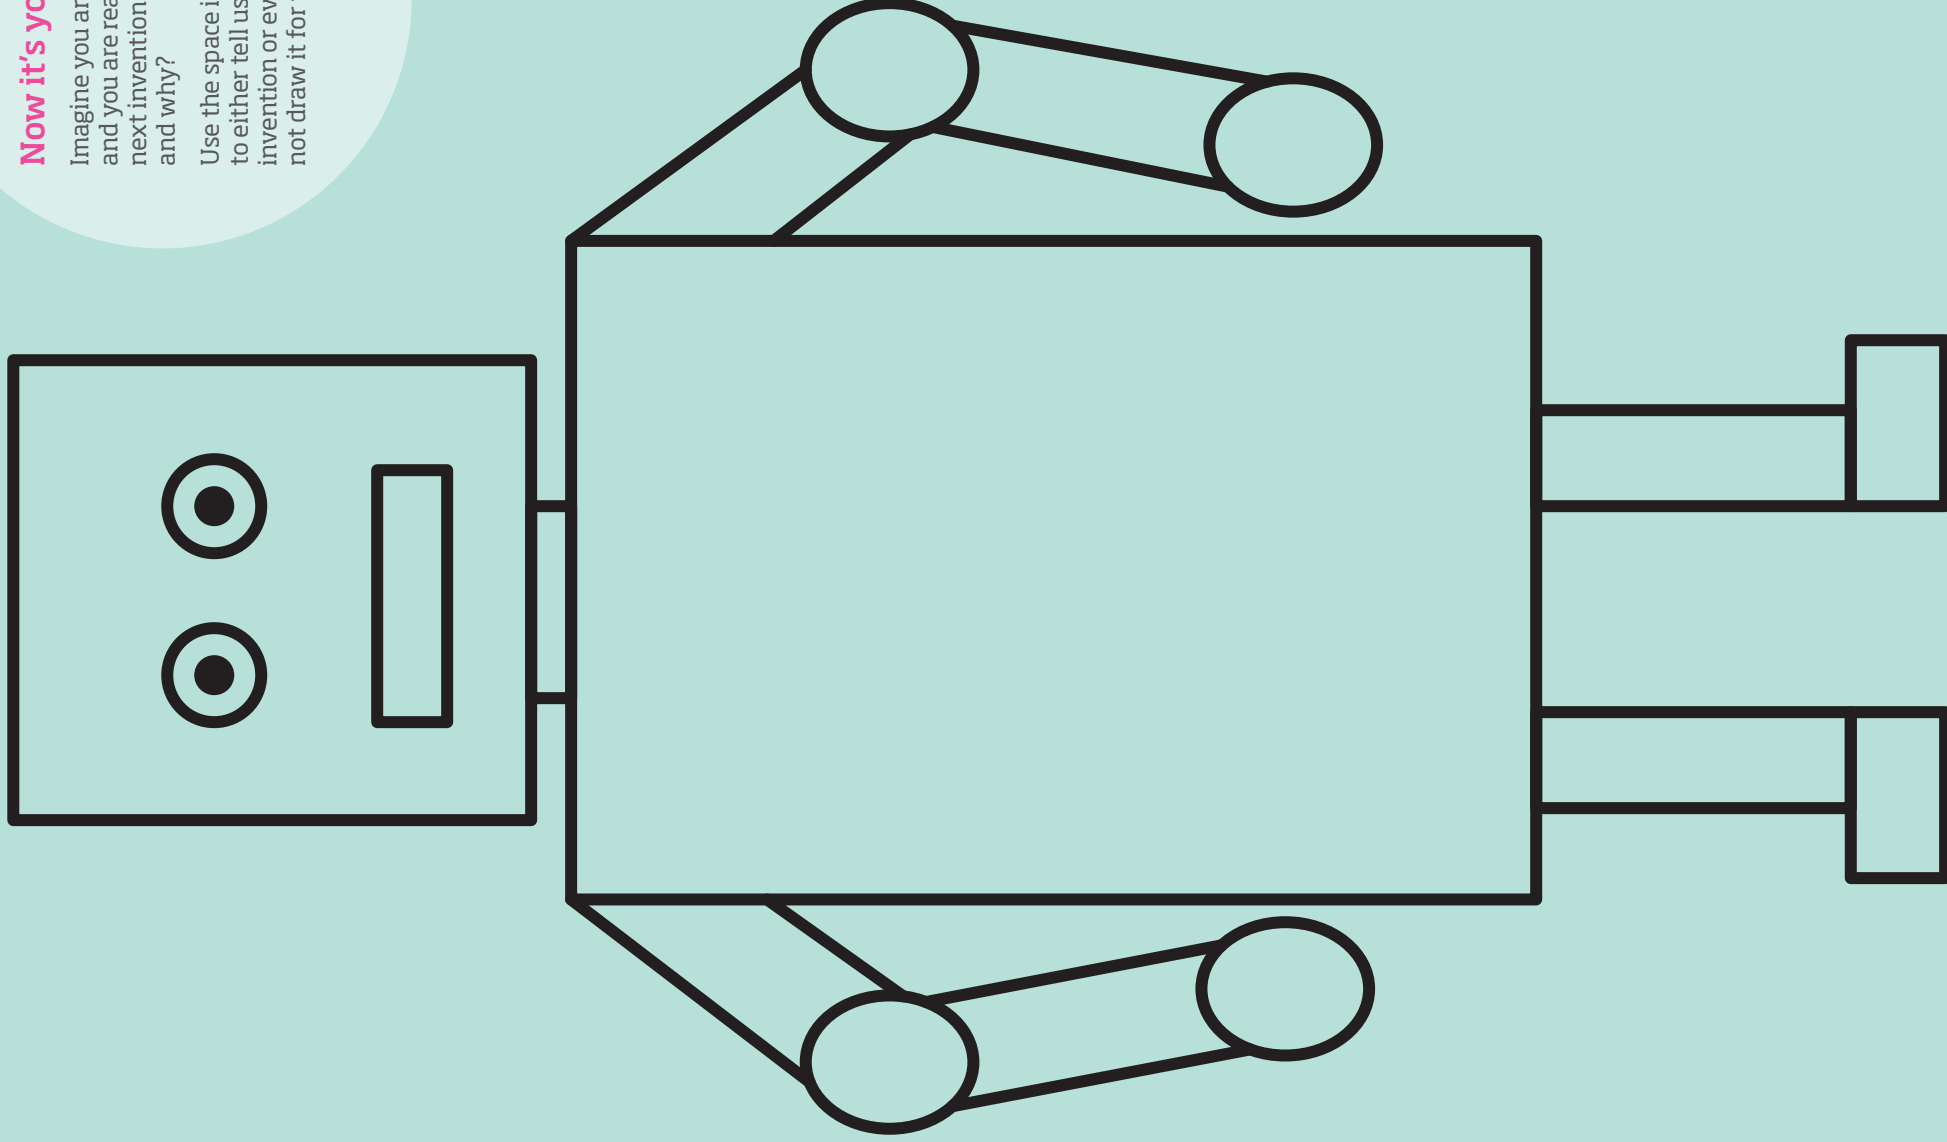

Get involved!

Tell us what your great invention would be and why. The best idea will win tickets to the Museum of Science and Industry's 4D Cinema and lunch in the museum cafe for a family of four. See inside for details.

Now it's your turn!

Imagine you are a top scientist and you are ready to create your next invention. What would it be and why?

Use the space inside the robot to either tell us about your invention or even better why not draw it for us!

Bring your entry along to our Science Jam event at the University of Salford MediaCityUK campus on Saturday 24 or Sunday 25 October. The best invention will win tickets for the Museum of Science and Industry's 4D Cinema and lunch in the museum café for a family of four!

Name of child:

Age:

Name of school

Name of parent:

Contact details for parent/carer (phone or email):

.....

**The winner will be notified by 31 October via contact details provided.
We look forward to seeing you at Salford Science Jam!**
