

ADVANCED MEDICAL IMAGING: EXTENDING ADVANCED PRACTICE

KEY FACTS

This 30 credit Extending Advanced Practice (EAP) module is for students who already hold a post-graduate level qualification and have already extended their scope of practice.

It is designed to enable you to develop within another area of practice taking a more independent and bespoke route to your learning. For example, if you already perform barium swallow examinations you may use this module to develop skills in another fluoroscopy examination such as proctograms.

Examples of areas of practice which may be studied on this module include: all fluoroscopic procedures, CTC, niche Ultrasound areas such as Breast or Vascular Ultrasound, Breast MRI Reporting, Extended MSK reporting (GP referrals for example). Other areas may be considered so please contact the module leader for further information.

OUR TEAM

Your learning will be delivered by a broad range of teaching and learning experts as well as clinical leaders from practice.

DELIVERY

Attendance Dates

- / 9 - 11 September 2019
 - / 13 - 14 January and / or 3 - 4 February 2020
 - / Revision support takes place in May 2020 (date TBC)
- The remainder of the module will consist of independent learning.

Assessment

June 2020

Clinical Placement

A clinical placement with access to a clinical caseload and the support of a clinical mentor will be required.

Independent Learning

As this module is designed for practitioners who already progress post-graduate credits, we expect you to demonstrate a high degree of independence in your learning. Some taught sessions will be provided but a large proportion will be self-directed study.

For further information, please contact:

Jo Coward
j.coward@salford.ac.uk

Module Leader: Extending Advanced Practice

Dr Claire Mercer
c.e.mercer@salford.ac.uk

Programme Leader: Advanced Medical Imaging

COURSE FEES

The course fees include all tuition and assessment fees, virtual and actual access to all the library facilities, including our on-line virtual learning environment "Blackboard", and one re-assessment if required.

Extending Advanced Practice (EAP) Single Module (30 credits)

/ £1,296

Taken as part of a full pathway:

PgCert in Advanced Medical Imaging (60 credits)

/ £2,592

PgDip in Advanced Medical Imaging (120 credits)

/ £5,148

MSc in Advanced Medical Imaging (180 credits)

/ £7,776

APPLICATION PROCESS

Applicants must apply for registration to the University in the following steps. If you are taking this as a single module only please skip step 1.

Step 1 - Registration

/ All applicants must register with the University
www.salford.ac.uk/apply-postgraduate

/ On the online application form:

/ Select Postgraduate Certificate, Select Course Name: Postgraduate Certificate in Advanced Medical Imaging, Postgraduate Diploma in Advanced Medical Imaging or Master of Science in Advanced Medical Imaging depending on your mode of study

/ Within My documents, Miscellaneous Documents add a word document entitled Module Selection / Supporting Statement. Within this document clearly state the module/s that you wish to apply for and the specialism.

For example: I wish to apply for the module Extending Advanced Practice in the specialism Breast Ultrasound

Step 2 - Confirmation of Funding

You must provide a purchase order number for the total amount of your module to our course administrator Barbara Henning on **b.a.henning@salford.ac.uk**

Step 3 - Verification of Clinical Requirements

You are required to complete a Verification of Clinical Requirements form to show that you have the relevant support on placement. This is located within **www.salford.ac.uk/course-finder**, Postgraduate Taught, Advanced Medical Imaging, Entry Requirements. Return this to Barbara Henning on **b.a.henning@salford.ac.uk**

SINGLE MODULE ENTRY: If you are taking this as a single module and not part of a Postgraduate Certificate / Diploma or Masters or are self funding then from **www.salford.ac.uk/advanced-medical-imaging**

- / Select 'Applying' down the left hand tab
- / Select 'Applying for a taught course'
- / Select 'Post Qualifying Health and Social Care Single Modules'
- / Select 'Level 7 Masters Application Form'
- / Within your Personal Statement please ensure to state the module you wish to apply for Extending Advanced Practice and your specialism for example
