

MSc

SUSTAINABILITY

University of
Salford
MANCHESTER

With cities expanding and the world's population set to reach 9.7 billion by 2050, the field of sustainability is becoming an increasingly important career. MSc Sustainability will equip you with the knowledge and skillset to take advantage of the vast opportunities and to forge a career in this field.

Sustainability is a broad and interdisciplinary field involving challenges related to improving human welfare, environmental quality, resource and food security, urban planning and beyond.

Our specialist postgraduate course is perfectly positioned to allow you to seize upon the growing sustainability sector whether you choose an environmental, geographical or mixed pathway.

COURSE DELIVERY

The course is available in flexible study formats, including full and part-time pathways. This course comprises eight taught modules, followed by a 60 credit research project.

Featured modules:

- | | |
|--|---|
| / Postgraduate Scholarship Skills | / Contemporary Issues in Sustainability |
| / Geographical Information Systems (optional) | / Planning and Policies of Urban Environments |
| / Environmental Pollution and Remediation (optional) | / Research Design and Delivery |
| / Energy and Sustainability (optional) | / Resource Security |
| | / Dissertation |

COURSE EXPERIENCE

- / Explore resource security through an interdisciplinary lens, touching on fields including planning, environmental, soil science and beyond
- / Learn about the role of planners and policy tools in enabling sustainability and urban resilience
- / Gain insight into the theory and practice of pollution and remediation
- / Study the contemporary issues across a broad range of topics including food security, renewable energy, urban agriculture, water security and waste management

CAREER PROSPECTS

You will gain the knowledge and skillset required to progress into a range of career fields. Example roles include sustainability officer, environmental consultant, ecosystems specialist and governmental researcher.
