Course Content

The programme is block delivered and there are several entry points throughout the year. Students will take the modules below in a sequence dependent on their start date.

The course is delivered in four blocks of intensive study periods. For each block, you study a single module for a 6-week period. Face-to-face teaching is delivered on campus for 6 hours each week. In addition, you will attend the taught element of the Industry Collaboration Project one afternoon a week during the 6-week blocks.

Part-time students study alternate modules (one module on, one module off) to complete their degree in two years.

During this period, you will also undertake independent study in your own time with online support through the University's virtual learning environment, Blackboard.

For the final third of your studies, you will work on your Industry Collaboration Project, either on a work-based option (internship, placement or live project) or traditional dissertation.

Modules

- / International Strategic Management
