## MSc/PgDip/PgCert **Management**

This course is designed for graduates from a non-business discipline who want to develop their skills and knowledge in order to become a successful manager. You will learn about, and critically evaluate, evidence-based best practice with the aim of informing and improving your own management skills. If you are already working as a manager, this highly regarded management qualification will significantly enhance your capabilities and improve your career prospects.

## Three reasons to study this course with us:

Gain a solid foundation in the key skills of effective management and leadership

Develop new or build on existing management skills to strengthen your personal performance and benefit your organisation

Tap into broad networks with fellow students across the wider business world

## Course Content

The programme is block delivered and there are several entry points throughout the year. Students will take the modules below in a sequence dependent on their start date.

The course is delivered in four blocks of intensive study periods. For each block, you study a single module for a 6-week period. Face-to-face teaching is delivered on campus for 6 hours each week. In addition, you will attend the taught element of the Industry Collaboration Project one afternoon a week during the 6-week blocks.

Part-time students study alternate modules (one module on, one module off) to complete their degree in two years.

During this period, you will also undertake independent study in your own time with online support through the University's virtual learning environment, Blackboard.

For the final third of your studies, you will work on your Industry Collaboration Project, either on a work-based option (internship or placement) or traditional dissertation.
