MSc/PgDip/PgCert **Project Management**

The Project Management programme will challenge you to develop your knowledge and skills in current Project Management theories, industry trends, tools and techniques. The programme reflects the current research trends and best practice in the industry.

Our teaching team consists of PM academics and practitioners who are actively involved in research; you will learn from them about the latest developments in areas such as Benefits management and realisation, Strategy focus and Output-driven Project Management. New developments in technologies that promote remote and digital Project Management will also be covered.

The course offers the opportunity to explore substantial technical elements and advances in Project Management in relation to Operations, Logistics and Supply chain optimisation, through specifically designed modules.

Our expertise is supported by input from industry partners such as Jaguar Landrover, Brother International and Manchester Airport who have helped to develop the programme. You will have the opportunity to learn from other students, expert guest lecturers and from your interaction with the Association of Project Management (APM) invited speakers and events.

Three reasons to study this course with us:

The modules within this programme are designed to prepare you for qualifications such as: APM Project Fundamentals Qualification, APM Project Management Qualification and APM Project Risk Management Certificate Level 1.

Programme developed by academic experts with input from industry partners

The Industry Collaboration Project offers you the chance to undertake a project within a 'real world' environment

Course content

The programme is block delivered and there are several entry points throughout the year. Students will take the modules below in a sequence dependent on their start date.

The course is delivered in four blocks of intensive study periods. For each block, you study a single module for a 6-week period. Face-to-face teaching is delivered on campus for 6 hours each week. In addition, you will attend the taught element of the Industry Collaboration Project each Wednesday afternoon during the 6-week blocks.

Part-time students study alternate modules (one module on, one module off) to complete their degree in two years.

During this period, you will also undertake independent study in your own time with online support through the University's virtual learning environment, Blackboard.

For the final third of your studies, you will work on your Industry Collaboration Project, working with your own or another organisation on a live brief.

Modules

- ✓ Procurement Risk and Contract Management
- ✓ Project Management Leadership / Skills/Planning Control
- ✓ Operations & Information Management
- ✓ Advanced Project and Logistics Management
- ✓ Industry Collaboration Project

Entry requirements

A minimum 2:2 degree or equivalent or successful completion of the Graduate Certificate International Management.

A wide range of professional qualifications are also accepted. We welcome applications from students who may not have formal/traditional entry criteria but who have relevant experience or the ability to pursue the course successfully. Please contact us for information on our Accreditation of Prior Learning (APL) process

English Language Requirements

International applicants will be required to show a proficiency in English. An IELTS score of 6.5 (no element below 5.5) is proof of this

Career Prospects

With our strong connections with the industry, you will gain an excellent grounding in the discipline and limitless employment opportunities post completion. The skills that you obtain during your studies are fully transferable from industry to industry and apply to all national and international contexts. Current alumni work at British Aerospace, TATA Jaguar Land Rover, Airbus, Brother International, Manchester Airport, and more
