
IMPORTANT INFORMATION

PLEASE READ

University of
Salford
MANCHESTER

Dear Mubeen,

I wanted to follow up with you after our recent [live event](#), to help you understand how you'll be taught when you join the Salford community this September, and to help you feel as ready as you can for your university life. As you will be studying at Salford City College, the information below has been provided by the team there.

Plans for teaching delivery

At the University Centre at Salford City College, we understand that you want to know precisely what teaching and learning is going to look like in September and completely appreciate your need for this information. Please rest assured that providing you with a hands-on, practical and engaging learning experience is at the forefront of our planning and something that we value at the University Centre. Consequently, we are striving to create an environment that ensures the safety of our staff and students while maintaining hand-on learning in the 'new normal'.

As you can appreciate, timetabling while ensuring physical distancing is a significant challenge for all Higher Education providers. We want to ensure that we get this right. Due to the nature of our smaller class sizes, we expect to be able to accommodate face-to-face teaching and learning for the majority of our classes. In the unlikely event that we are unable to facilitate face-to-face delivery, we will provide digital remote sessions to complement our onsite classes.

Getting back on campus

We are commencing a slow, phased reopening of our facilities to ensure that all of our facilities are ready for the return to teaching and learning in September. The safety of our staff and student community is at the forefront of our planning, and we want to ensure that we can successfully adhere to the latest government guidance and social distancing measures. As you will appreciate, the advice is frequently changing, and we are working to this as and when information becomes available, implementing the required changes that are necessary.

Please appreciate that this is an evolving situation and we do not have all the answers that you need right now, but we are working day and night on everything that we need to solve by September. We are confident that we will have the systems, processes and infrastructure in place to give you the best chance of succeeding and achieving while studying with us. We want to ensure that you get the most out of your time studying at the University Centre.

Registration, induction and keeping in touch

We anticipate that registration will commence from 21 September 2020 and that teaching will commence on the 28 September 2020. We will contact you with further details for registration and induction prior to this date. Please do ensure to keep your contact information up to date via UCAS. You'll find a list of [FAQs](#) on the University's website which are being updated regularly – we'd recommend you bookmark this and keep checking back for updates.

In the meantime, if you have any queries relating to commencing your course at the University Centre at Salford City College, please contact us on 0161 631 5050 or at HEAdmissions@salfordcc.ac.uk.

Keep safe, keep your families safe and we look forward to welcoming you in September.

With best wishes,
Dr. Sam Grogan
