
NEWS FROM SALFORD

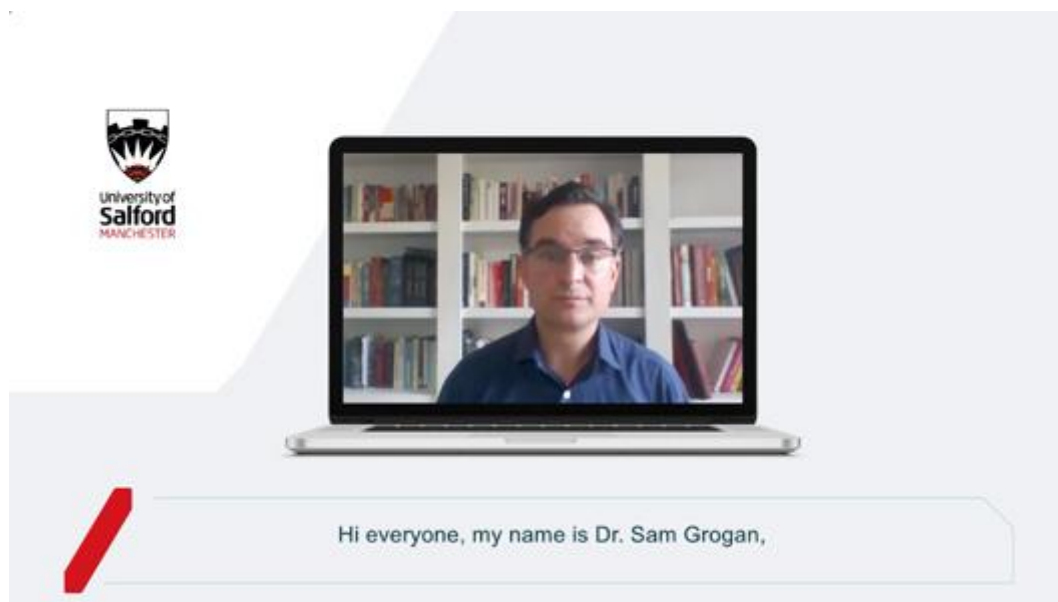

University of
Salford
MANCHESTER

Hi Mubeen,

I hope you are keeping safe and well.

Here is my [latest video](#) instalment to provide another update to you and give more details about what you can expect when you join us in September. It's also clear that following my recent [video](#) and [live event](#) you understandably have more questions about how any changes might impact you and your university experience.

We've therefore developed [another video](#) where I answer some of these questions, and give an update of where we're up to with addressing changes that might need to be made on campus, and to our teaching for the start of term.

As promised, there will be further videos in this series, with the next one focusing on your welcome, registration and induction activities. I know you will still have questions – we're updating our [FAQ page](#) on a regular basis,

but get in touch using the details below with any further queries, and we'll update you with new information as we have it.

Best wishes,

Dr Sam Grogan
