## BSc (HONS) QUANTITY SURVEYING (CHARTERED SURVEYOR DEGREE APPRENTICESHIP)

### Why apprenticeships?

We chose the apprenticeship route to offer individuals an opportunity to learn and gain valuable life experience in their field.

### Why Salford?

The University provide a high quality and dedicated apprenticeship programme which is fully integrated and supportive in its mentorship and involves the mentors within our organisation ensuring a successful outcome for all.

### What are the main benefits to your organisation of the apprenticeship route?

The apprentice is keen and unbiased and provides a new and fresh outlook on our process and procedures, offering a new perspective which improves our practices and methods. It is valuable also for our mentors and line managers to learn from the apprentice. To bring in and grow a person is an opportunity and a privilege and provides for an all-round committed and professional employee. The apprentice gains real-life experiences and can apply their learning to assist in

overcoming the day-to-day challenges of the role. Our apprentices truly become an integral and valuable team member for the business.

### As an employer, how have you found the training and support provided by the University of Salford?

Excellent, a very thorough, structured and fully interactive programme for all parties involved. There has always been great communication and follow-up with fully documented and explained processes.

### Would you recommend degree apprenticeships and the University of Salford to other organisations?

Absolutely!
