

SUSTAINABILITY AT THE UNIVERSITY OF SALFORD

Sustainability at the University of Salford Ambition

University Goal: To create a sustainable, equitable, just, healthy, creative and prosperous society

Sustainability Vision: By embedding sustainability, we will enable our university community to create positive change for society and environment

Sustainability

Goals:

To create a Sustainable Campus

Aiming for Net Zero Carbon by 2038, reducing energy use, embracing the circular economy, and embedding sustainability into decision-making.

To enable a Sustainable Impact beyond our campus

Working with our supply chain as well as integrating Education for Sustainable Development into all taught programmes, prioritising sustainability in research, and tracking contributions to the UNSDGs.

To support Sustainable Communities

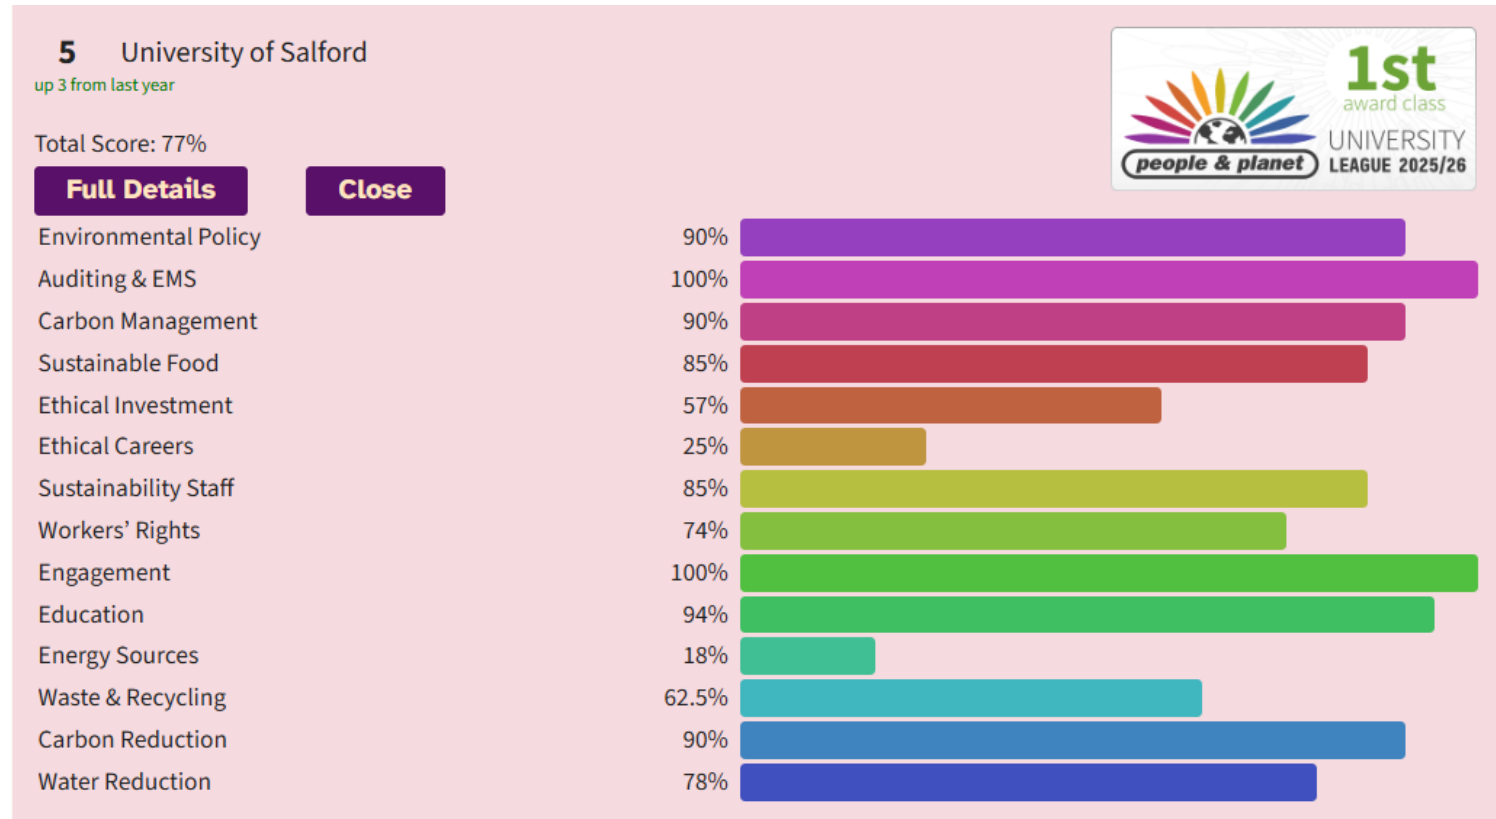

Sharing expertise, fostering partnerships, and supporting local and global sustainability efforts.

Benchmarking – People and Planet University League

HOW ETHICAL & SUSTAINABLE IS YOUR UNIVERSITY?

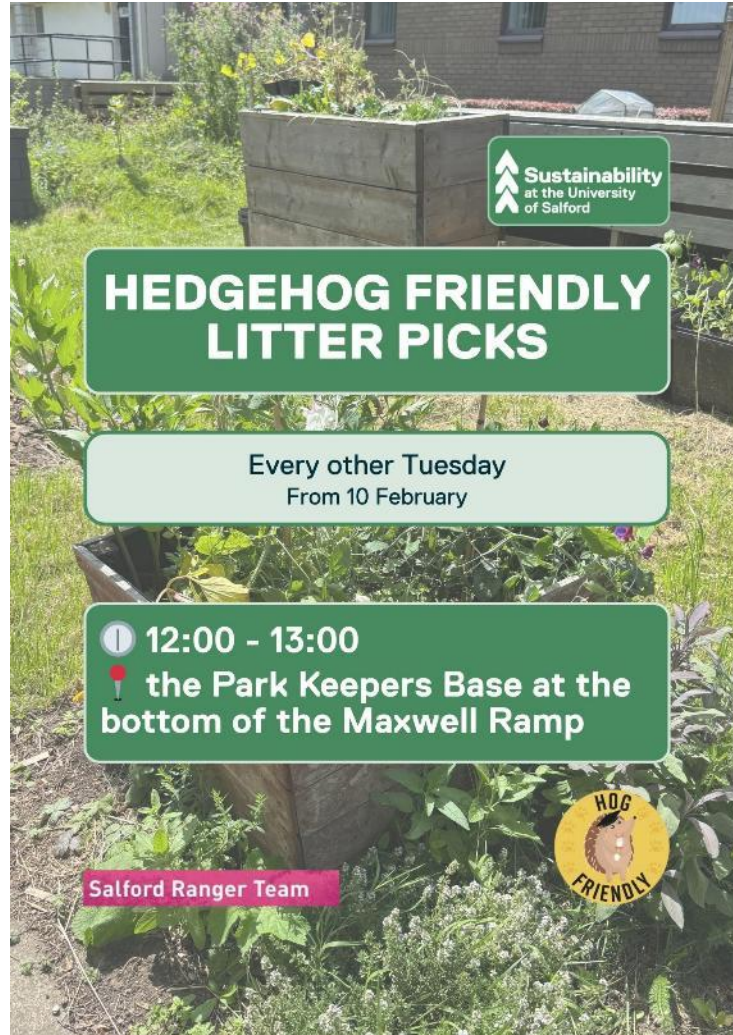

NEW RANKING OUT TODAY!

Sustainability and Environment Society

Society Aims

- Promoting accessible, sustainable practices and knowledge.
- Helping students to live more sustainable lives.
- Providing a hub for students to connect, support each other and discuss issues around the environment and the climate emergency
- Raising awareness of climate change and sustainability issues across the globe.
- Providing students with opportunities to learn practical skills and experience in areas from conservation to environmental management.

Top Tips to be Sustainable at University

- Explore and incorporate sustainability into your **studies and projects**
- **Travel sustainably** – active travel, public transport
- **Explore our biodiversity** – join biodiversity events, take the Salford tree trail, sign up to UoS iNaturalist
- **Reduce & Reuse** – use reusable cups, bottles, cutlery, etc. Water refill stations are widely available on campus and you can save money on hot drinks if you use a reusable cup
- **Recycle Right** – Please use our recycling bins correctly!
